Jim - sure I think it would be also helpful to have examples of the results of using those definitions, as well as the definitions themselves, that are being proposed

Chip,
As a follow-up to our meeting with Dan Opalski, I'd like to schedule a meeting with you to resolve key definitions for our FS Elements check-in meeting (e.g., Sediment Management Areas and Comprehensive Alternatives). I'm in a meeting until about 2:30 today, can I call you then to discuss appropriate attendees and set-up a time and date? Thanks, Jim.
